TAXUD/UCC-DA/2014-1

**Consolidated preliminary draft of the
UNION CUSTOMS CODE DELEGATED ACT**

DISCLAIMER:

I. Purpose of the document

Having regard to the document TAXUD/A2/JMG(ks)(2013)3923390 of 06/12/2103 outlining the consultation of Member States and Trade Representative on the UCC related Commission acts, this document is a preliminary draft issued by DG TAXUD in order to start consultations with MS and trade to assist the Commission in preparing the Union Customs Code related delegated act (UCC-DA). It presents the current state of the preliminary draft UCC-DA following the work already done with the different stakeholders on the preliminary draft Modernised Customs Code Implementing Provisions and subsequent internal review within TAXUD.

Further to the document referred to above on the legal implementation of the UCC, this preliminary draft DA is the basis for the so-called '**final**' DA, to be supplemented later on by a '**transitional**' DA

However this document is under constant analysis regarding especially

- legal consistency
- overall structure
- unified and commonly agreed definitions
- unified and consistent numbering of the Articles
- proper references of the UCC and its empowering provisions, proper cross-references within the preliminary draft itself.

The **Annexes** will be incorporated in a separate document which will be produced at a later stage.

This document does not incorporate provisions concerning **Business Continuity Plans** to be applied in case of temporary failure of IT systems. Those provisions will be drafted at a later stage, once the processes and the provisions based on the normal use of electronic data processing techniques will be sufficiently stable.

II. Legal follow-up

This document is intended to be used as a basis for further consultation and review with stakeholders.

This document may have to be updated to take into account changes that may result from various policy initiatives (e.g. Blue belt e-manifest, Air Cargo Security, etc.).

III. Business Process Modelling (BPM) follow-up

The related BPM models will be aligned with this document.

IV. How to read the document

The provisional structure of the consolidated preliminary draft of the UCC-DA is based on the one of the UCC, including Chapters or Sections which do not call for any delegated act provisions.

After each Article number there is a heading showing the Union Customs Code provision to be implemented and the empowering provision for doing so. References have been also made to the current implementing provisions, if any, as well as to possible Annexes and to the adoption procedure.

Article 64((3))	Article 65	Article 66	-	DA

This Subsection, Subsection 2A and Subsection 2B lay down the rules concerning the definition of the concept of 'originating products', the procedures and the methods of administrative cooperation related thereto, for the purposes of the application of the scheme of

generalised tariff preferences (GSP) granted by the Union by Regulation (EU) No 978/2012 of the European Parliament and of the Council¹ to developing countries ('the scheme').

Article DA-II-2-10 (222-2-02-DA)

Definitions

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 64(3)	Article 65	Article 67	-	DA

1. For the purposes of this Subsection, Subsection 2A and Subsection 2B the following definitions shall apply:

- (a) 'beneficiary country' means a country or territory as defined in Article 2 (d) of Regulation (EC) No 978/2012;
- (b) 'manufacture' means any kind of working or processing including assembly;
- (c) 'material' means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (d) 'product' means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (e) 'goods' means both materials and products;
- (f) 'bilateral cumulation' means a system that allows products which according to this Regulation originate in the Union, to be considered as originating materials in a beneficiary country when they are further processed or incorporated into a product in that beneficiary country;
- (g) 'cumulation with Norway, Switzerland or Turkey' means a system that allows products which originate in Norway, Switzerland or Turkey to be considered as originating materials in a beneficiary country when they are further processed or incorporated into a product in that beneficiary country and imported into the Union;
- (h) 'regional cumulation' means a system whereby products which according to this Regulation originate in a country which is a member of a regional group are considered as materials originating in another country of the same regional group (or a country of another regional group where cumulation between groups is possible) when further processed or incorporated in a product manufactured there;

¹ Regulation (EU) No 978/2012 of the European Parliament and of the Council of 25 October 2012 applying a scheme of generalised tariff preferences and repealing Council Regulation (EC) No 732/2008 (OJ L 303, 31.10.2012, p. 1).

- (i) 'extended cumulation' means a system, conditional upon the granting by the Commission, on a request lodged by a beneficiary country and whereby certain materials, originating in a country with which the Union has a free-trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade (GATT) in force, are considered to be materials originating in the beneficiary country concerned when further processed or incorporated in a product manufactured in that country;
- (j) 'fungible materials' means materials that are of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another once they are incorporated into the finished product;
- (k) 'regional group' means a group of countries between which regional cumulation applies;
- (l) 'customs value' means the value as determined in accordance with the 1994 Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on Customs Valuation);
- (m) 'value of materials' in the list in Annex [X] means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the beneficiary country. Where the value of the originating materials used needs to be established, this point shall be applied *mutatis mutandis*;
- (n) 'ex-works price' means the price paid for the product ex-works to the manufacturer in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs related to its production, minus any internal taxes which are, or may be, repaid when the product obtained is exported.

Where the actual price paid does not reflect all costs related to the manufacturing of the product which are actually incurred in the beneficiary country, the ex-works price means the sum of all those costs, minus any internal taxes which are, or may be, repaid when the product obtained is exported;
- (o) 'maximum content of non-originating materials' means the maximum content of non-originating materials which is permitted in order to consider a manufacture as working or processing sufficient to confer originating status on the product. It may be expressed as a percentage of the ex-works price of the product or as a percentage of the net weight of these materials used falling under a specified group of chapters, chapter, heading or sub-heading;
- (p) 'net weight' means the weight of the goods themselves without packing materials and packing containers of any kind;
- (q) 'chapters', 'headings' and 'sub-headings' mean the chapters, the headings and sub-headings (four- or six-digit codes) used in the nomenclature which makes up the Harmonized System with the changes pursuant to the Recommendation of 26 June 2004 of the Customs Cooperation Council;

- (r) 'classified' refers to the classification of a product or material under a particular heading or sub-heading of the Harmonized System;
- (s) 'consignment' means products which are either:
 - (i) sent simultaneously from one exporter to one consignee; or
 - (ii) covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such document, by a single invoice;
- (t) 'exporter' means a person exporting the goods to the Union or to a beneficiary country who is able to prove the origin of the goods, whether or not he is the manufacturer and whether or not he himself carries out the export formalities;
- (u) 'registered exporter' means an exporter who is registered with the competent authorities of the beneficiary country concerned for the purpose of making out statements on origin for the purpose of exporting under the scheme;
- (v) 'statement on origin' means a statement made out by the exporter indicating that the products covered by it comply with the rules of origin of the scheme, for the purpose of allowing either the person declaring the goods for release for free circulation in the Union to claim the benefit of preferential tariff treatment or the economic operator in a beneficiary country importing materials for further processing in the context of cumulation rules to prove the originating status of such goods.

2 For the purpose of paragraph 1(a), where reference is made to a 'beneficiary country', the term shall also cover and cannot exceed the limits of the territorial sea of that country or territory within the meaning of the United Nations Convention on the Law of the Sea (Montego Bay Convention, 10 December 1982).

3. For the purpose of point (n) of paragraph 1, where the last working or processing has been subcontracted to a manufacturer, the term 'manufacturer' referred to in the first subparagraph of point (n) of paragraph 1 may refer to the enterprise that has employed the subcontractor.

2. In the case referred to in the second sub-paragraph of paragraph 1, an average ex-works price of the product and average value of non-originating materials used shall be calculated respectively on the basis of the sum of the ex-works prices charged for all sales of the products carried out during the preceding fiscal year and the sum of the value of all the non-originating materials used in the manufacture of the products over the preceding fiscal year as defined in the country of export, or, where figures for a complete fiscal year are not available, a shorter period which should not be less than three months.

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 64(3)	Article 65	Article 86	ex Annex 13b ex Annex 16	DA

- (c) Group III: Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka;
- (d) Group IV: Argentina, Brazil, Paraguay and Uruguay.

2. Regional cumulation between countries within the same group shall apply only where the following conditions are fulfilled:

- (a) the countries involved in the cumulation are, at the time of exportation of the product to the Union:
 - (i) beneficiary countries as long as the registered exporter system has not yet been implemented in those countries;
 - (ii) beneficiary countries as included in the list referred to in Article DA-II-2-13 (222-2-05(1) DA) where the registered exporter system has been implemented in those countries;
- (b) for the purpose of regional cumulation between the countries of a regional group the rules of origin laid down in this Subsection apply;
- (c) the countries of the regional group have undertaken:
 - (i) to comply or ensure compliance with this Subsection, and
 - (ii) to provide the administrative cooperation necessary to ensure the correct implementation of this Subsection both with regard to the Union and between themselves;
- (d) the undertakings referred to in point (c) have been notified to the Commission by the Secretariat of the regional group concerned or another competent joint body representing all the members of the group in question.

For the purposes of point (b), where the qualifying operation laid down in Part II of Annex [X] is not the same for all countries involved in cumulation, the origin of products exported from one country to another country of the regional group for the purpose of regional cumulation shall be determined on the basis of the rule which would apply if the products were being exported to the Union.

Where countries in a regional group have already complied with points (c) and (d) of the first subparagraph before 1 January 2011, a new undertaking shall not be required.

3. The materials listed in Annex [X] shall be excluded from the regional cumulation provided for in paragraph 2 in the case where:

- (a) the tariff preference applicable in the Union is not the same for all the countries involved in the cumulation; and
- (b) the materials concerned would benefit, through cumulation, from a tariff treatment more favourable than the one they would benefit from if directly exported to the Union.

4. Regional cumulation between beneficiary countries in the same regional group shall apply only under the condition that the working or processing carried out in the beneficiary country where the materials are further processed or incorporated goes beyond the operations described in Article DA-II-2-21(1) (222-2-13(1) DA) and, in the case of textile products, also beyond the operations set out in Annex [X].

Where the condition laid down in the first subparagraph is not fulfilled, the products shall have as country of origin the country of the regional group which accounts for the highest share of the value of the materials used originating in countries of the regional group.

Where the country of origin is determined pursuant to the second sub-paragraph, that country shall be stated as country of origin on the proof of origin made out by the exporter of the product to the Union, or, until the application of the registered exporter system, issued by the authorities of the beneficiary country of exportation.

5. At the request of the authorities of a Group I or Group III beneficiary country, regional cumulation between countries of those groups may be granted by the Commission, provided that the Commission is satisfied that each of the following conditions is met:

- (a) materials originating in a country of one regional group shall be considered as materials originating in a country of the other regional group when incorporated in a product obtained there, provided that the working or processing carried out in the latter beneficiary country goes beyond the operations described in Article DA-II-2-21(1) (222-2-13(1) DA) and, in the case of textile products, also beyond the operations set out in Annex [X];

- (b) where the condition laid down in point (a) is not fulfilled, the products shall have as country of origin the country participating in the cumulation which accounts for the highest share of the value of the materials used originating in countries participating in the cumulation.

Where the country of origin is determined pursuant to point (b) of the first sub-paragraph, that country shall be stated as country of origin on the proof of origin made out by the exporter of the product to the Union or, until the application of the registered exporter system, issued by the authorities of the beneficiary country of exportation.

7. The Commission will publish in the *Official Journal of the European Union (C series)* the date on which the cumulation between countries of Group I and Group III provided for in paragraph 5 takes effect, the countries involved in that cumulation and, where appropriate, the list of materials in relation to which the cumulation applies.

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 64(3)	Article 65	Article 97t	-	DA

1. Subsequent verifications of certificates of origin Form A and invoice declarations shall be carried out at random or whenever the customs authorities of the Member States have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Subsection.

2. When they make a request for subsequent verification, the customs authorities of the Member States shall return the certificate of origin Form A and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the competent governmental authorities in the exporting beneficiary country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

If the customs authorities of the Member States decide to suspend the granting of the tariff preferences while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

3. When a request for subsequent verification has been made, such verification shall be carried out and its results communicated to the customs authorities of the Member States within a maximum of six months or, in the case of requests sent to Norway, Switzerland or Turkey for the purpose of verifying replacement proofs of origin made out in their territories

on the basis of a certificate of origin Form A or an invoice declaration made out in a beneficiary country, within a maximum of eight months from the date on which the request was sent. The results shall be such as to establish whether the proof of origin in question applies to the products actually exported and whether these products can be considered as products originating in the beneficiary country.

4. In the case of certificates of origin Form A issued following bilateral cumulation, the reply shall include a copy (copies) of the movement certificate(s) EUR.1 or, where necessary, of the corresponding invoice declaration(s).

5. If, in cases of reasonable doubt, there is no reply within the six months specified in paragraph 3 or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, a second communication shall be sent to the competent authorities. If after the second communication the results of the verification are not communicated to the requesting authorities within four months from the date on which the second communication was sent, or if these results do not allow the authenticity of the document in question or the real origin of the products to be determined, the requesting authorities shall, except in exceptional circumstances, refuse entitlement to the tariff preferences.

6. Where the verification procedure or any other available information appears to indicate that the rules of origin are being contravened, the exporting beneficiary country shall, on its own initiative or at the request of the customs authorities of the Member States, carry out appropriate inquiries or arrange for such inquiries to be carried out with due urgency to identify and prevent such contraventions. For this purpose, the Commission or the customs authorities of the Member States may participate in the inquiries.

7. For the purposes of the subsequent verification of certificates of origin Form A, the exporters shall keep all appropriate documents proving the originating status of the products concerned and the competent governmental authorities of the exporting beneficiary country shall keep copies of the certificates, as well as any export documents referring to them. These documents shall be kept for at least three years from the end of the year in which the certificate of origin Form A was issued.

1. Subsequent verifications of movement certificates EUR.1 and of invoice declarations shall be carried out at random or whenever the customs authorities in the importing Member State or the competent governmental authorities of the beneficiary countries or territories have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Subsection.

EUR.1 movement certificate and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the competent authorities in the exporting beneficiary country or territory or Member State, giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

If the customs authorities in the importing Member State decide to suspend the granting of the tariff preferences referred to in Article DA-II-2-68 (222-3-03 DA) while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

3. When an application for subsequent verification has been made in accordance with paragraph 1, such verification shall be carried out and its results communicated to the customs authorities of the importing Member States or to the competent governmental authorities of the importing beneficiary country or territory within a maximum of six months. The results shall be such as to establish whether the proof of origin in question applies to the products actually exported and whether these products can be considered as originating in the beneficiary country or territory or in the Union.

4. If in cases of reasonable doubt there is no reply within the six months specified in paragraph 3 or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, a second communication shall be sent to the competent authorities. If after the second communication the results of the verification are not communicated to the requesting authorities within four months, or if these results do not allow the authenticity of the document in question or the real origin of the products to be determined, the requesting authorities shall, except in exceptional circumstances, refuse entitlement to the tariff preferences.

5. Where the verification procedure or any other available information appears to indicate that the provisions of this Subsection are being contravened, the exporting beneficiary country or territory shall, on its own initiative or at the request of the Union, carry out appropriate inquiries or arrange for such inquiries to be carried out with due urgency to identify and prevent such contraventions.
