TAXUD/UCC-IA/2014-1

**Consolidated preliminary draft of the
UNION CUSTOMS CODE IMPLEMENTING ACT**

DISCLAIMER:

I. Purpose of the document

Having regard to the document TAXUD/A2/JMG(ks)(2013)3923390 of 06/12/2103 outlining the consultation of Member States and Trade Representative on the UCC related Commission acts, this document is a preliminary draft issued by DG TAXUD in order to start consultations with MS and trade to assist the Commission in preparing the Union Customs Code related implementing act (UCC-IA). It presents the current state of the preliminary draft UCC-IA following the work already done with the different stakeholders on the preliminary draft Modernised Customs Code Implementing Provisions and subsequent internal review within TAXUD.

Further to the document referred to above on the legal implementation of the UCC, this preliminary draft IA is the basis for the so-called 'general' IA, and does not cover other possible 'specific' IAs.

However this document is under constant analysis regarding especially

- legal consistency
- overall structure
- unified and commonly agreed definitions
- unified and consistent numbering of the Articles
- proper references of the UCC and its empowering provisions, proper cross-references within the preliminary draft itself.

The **Annexes** will be incorporated in a separate document which will be produced at a later stage.

This document does not incorporate provisions concerning **Business Continuity Plans** to be applied in case of temporary failure of IT systems. Those provisions will be drafted at a later stage, once the processes and the provisions based on the normal use of electronic data processing techniques will be sufficiently stable.

II. Legal follow-up

This document is intended to be used as a basis for further consultation and review with stakeholders.

This document may have to be updated to take into account changes that may result from various policy initiatives (e.g. Blue belt e-manifest, Air Cargo Security, etc.).

III. Business Process Modelling (BPM) follow-up

The related BPM models will be aligned with this document.

IV. How to read the document

The provisional structure of the consolidated preliminary draft of the UCC-IA is based on the one of the UCC, including Chapters or Sections which do not call for any implementing act provisions.

After each Article number there is a heading showing the Union Customs Code provision to be implemented and the empowering provision for doing so. References have been also made to the current implementing provisions, if any, as well as to possible Annexes and to the adoption procedure.

TITLE II

FACTORS ON THE BASIS OF WHICH IMPORT OR EXPORT DUTY AND OTHER MEASURES IN RESPECT OF TRADE IN GOODS ARE APPLIED

CHAPTER 1

Common Customs Tariff and tariff classification of goods

I – MANAGEMENT OF TARIFF QUOTAS DESIGNED TO BE USED FOLLOWING THE CHRONOLOGICAL ORDER OF DATES OF ACCEPTANCE OF CUSTOMS DECLARATIONS

Article IA-II-1-01 (210-01-IA)

General rules on the uniform management of tariff quotas

UCC implemented provision	UCC empowering provision	Current IP provision	Annex	Adoption procedure
Article 56(4)	Article 58(1)	Article 308a	-	IA

1. Save as otherwise provided, where tariff quotas are opened by a Union legislation, those tariff quotas shall be managed in accordance with the chronological order of dates of acceptance of customs declarations for release for free circulation.
2. Where a customs declaration for release for free circulation incorporating a valid request by the declarant to benefit from a tariff quota is accepted, the Member State concerned shall draw from the tariff quota, through the Commission, a quantity corresponding to its needs.
3. Member States shall not present any request for drawing from a tariff quota until the conditions laid down in Article IA-V-2-09 (522-2-04-IA) [Current IP provision: Article 256 (2) and (3)] are satisfied.
4. Subject to paragraph 8, allocations on a tariff quota shall be granted by the Commission on the basis of the date of acceptance of the relevant customs declaration for release for free circulation, and to the extent that the balance of the relevant tariff quota so permits. Priority shall be established in accordance with the chronological order of these dates.
5. The Member States shall communicate electronically to the Commission all valid requests for drawing without delay. Those communications shall include the date referred to in paragraph 4, and the exact quantity applied for on the relevant customs declaration.
6. For the purposes of management of tariff quotas, the Commission shall fix order numbers where none are provided by the Union legislation opening the tariff quota.

7. If the quantities requested for drawing from a tariff quota are greater than the balance available, allocation shall be made on a pro rata basis with respect to the requested quantities.

8. For the purposes of this Article, acceptance of a declaration by the customs authorities on 1, 2 or 3 January shall be regarded as acceptance on 3 January. However, if one of those days falls on a Saturday or a Sunday, such acceptance shall be regarded as having taken place on 4 January.

9. Where a new tariff quota is opened, drawings shall not be granted by the Commission before the 11th working day following the date of publication of the provision which created that tariff quota. Subject to Article IA-II-1-02(2) (210-02(2) IA) [Current IP provision: Article 308b (2)], the first allocation on a new tariff quota shall take into account all unanswered requests which relate to customs declarations for release for free circulation accepted since the first day of the validity period of the tariff quota and which have been communicated to the Commission. Priority shall be established in accordance with the chronological order of the dates of acceptance of the customs declarations.

10. Member States shall immediately return to the Commission the quantities drawn which they do not use. However, where an erroneous drawing representing a customs debt of less than EUR 10 is discovered after the first month following the end of the period of validity of the tariff quota concerned, Member States do not need to make a return.

11. If the customs authorities invalidate a customs declaration for release for free circulation in respect of goods which are the subject of a request for benefit of a tariff quota, the complete request shall be cancelled in respect of those goods. The Member States concerned shall immediately return to the Commission any quantity drawn, in respect of those goods, from the tariff quota.

12. All details of drawings requested by individual Member States shall be treated by the Commission and other Member States as confidential, as provided for in Article 12(1) of the Code.

4. Exceptionally, the certificates of origin referred to above may be issued after the export of the products to which they relate, where the failure to issue them at the time of such export was a result of involuntary error or omission or special circumstances.

The issuing authorities may not issue retrospectively a certificate of origin provided for in paragraph 1 until they have checked that the particulars in the exporter's application correspond to those in the relevant export file.

Article IA-II-2-02 (221-02-IA)

To this end the third countries concerned shall send the European Commission:

2. For the purposes of paragraph 1, the competent authorities in the Union shall return the certificate of origin or a copy thereof to the governmental authority designated by the exporting country or territory, giving, where appropriate, the reasons of form or substance for an enquiry. 3. The results of subsequent verifications shall be communicated to the competent authorities in the Union as soon as possible.

The said results shall be such as to enable the competent authority to determine whether certificates of origin subject to subsequent verification apply to the goods actually exported and whether the latter may actually give rise to application of the special import arrangements concerned.

2. Royalties and licence fees are related to the imported goods where in particular, the rights transferred under the licence or royalties agreement are *embodied in the goods*. The method of calculation of the amount of the royalty or licence fee is not the decisive factor.

However, where the method of calculation of the amount of a royalty or licence fee derives from the price of the imported goods, it may be assumed in the absence of evidence to the contrary that the payment of that royalty or licence fee is related to the goods to be valued.

3. Payments made by the buyer for the right to distribute or resell the imported goods are not part of the customs value if such payments are not a condition of the sale of the goods for export to the customs territory of the Union.

4. Royalties and licence fees are considered to be paid as a condition of sale for the imported goods when any of the following conditions is met:

3. Where no unit price can be determined under either paragraph 1 or paragraph 2, upon application by the importer the unit price at which the imported goods are sold in the customs territory of the Union after further working or processing shall be used. In this case account shall be taken of the increase in value resulting from the working or processing.

- (d) sales in quantities which are not sufficient to allow the unit price to be determined.

5. Where there is more than one relevant unit price, the unit price at which the greatest aggregate quantity is sold shall be used.

6. In determining the customs value, the following should be deducted from the unit price determined under the above paragraphs:

- (b) the usual costs of transport and insurance and associated costs incurred within the customs territory of the Union;
- (c) the import duties and other charges payable in the customs territory of the Union by reason of the import or sale of the goods.

7. The customs value of certain perishable goods as referred to in Annex XX imported on consignment may be directly determined in accordance with point (c) of Article 74(2) of the Code. For this purpose the unit prices shall be notified to the Commission by the Member States and disseminated by the Commission via TARIC in accordance with Article 6 of Council Regulation (EEC) No 2658/87.

Such unit prices may be used to determine the customs value of the imported goods for periods of 14 days; each period shall start on a Friday.

The unit prices shall be calculated and notified as follows:

- (a) after the deductions provided for in paragraph 6, a unit price per 100 kg net for each category of goods shall be notified by the Member States to the Commission. The Member States may fix standard amounts for the costs referred to point (b) of paragraph 6, which shall be made known to the Commission;

- (b) the reference period for determining the unit prices shall be the preceding period of 14 days which ends on the Thursday preceding the week during which new unit prices are to be established;
